Lunch Bunch

Last month, the lunch bunch visited Evans Prairie, and we were immediately struck by the beautiful atmosphere - a lovely setting that made for a pleasant afternoon. Those that had a crafted cocktail enjoyed their drinks. When it came to food, however, we had mixed reviews. On a scale of 1 to 5, we gave the lunch a solid 3.

Maybe we're a bit spoiled having visited so many Country Clubs and great restaurants across the villages, but we always appreciate the experience - and Evans Prairie offered a wonderful spot to gather and relax.

Out & About

For the month of August, our men's group has chosen the new Hooters in the Villages, and the lunch bunch will be accompanying.

We have also chosen Arnold Palmer Country Club for the lunch bunch.

Summer Song

"In summer, the song sings itself."
—William Carlos Williams

A Summer Light Show

Looking for a summer showstopper? Step outside in the early morning hours of Aug. 12-13, when the Perseid meteor shower reaches its peak. Viewers can potentially see more than 50 shooting stars each hour. Finding a dark place to watch increases your chances of getting to wish on a falling star.

An Ironclad Legend

"Old Ironsides" is the USS Constitution, a historic U.S. Navy warship. It earned its nickname during the War of 1812 when British cannonballs seemed to bounce off its sturdy oak sides, prompting a crewman to exclaim, "Her sides are made of iron!"

Learning Made Easy: For Dummies

The "For Dummies" book series has been a beloved staple in the world of self-help and educational literature since its inception more than 30 years ago. Launched in 1991 with the first title, "DOS For Dummies," the series was created to demystify complex subjects and make learning accessible to everyone. The brainchild of John Kilcullen, these books quickly gained popularity for their straightforward, humorous and engaging approach to a wide range of topics. Check out some of these popular titles:

"Windows For Dummies." This long-standing bestseller provides an intuitive introduction to the Windows operating system.

"Small Business For Dummies."
Get some guidance before starting your own business venture.

"Calculus For Dummies." A must-read for anyone struggling to understand calculus concepts.

"Chess For Dummies." Learn the basics and perfect your strategy in this beginner's guide to playing chess.

"Making Friends as an Adult For Dummies." This book helps adults make connections and foster friendships in the later stages of life.

"Gut Health For Dummies."
This trending health resource can help you optimize your gut and its microbes for better overall health.

Picnic Power

Salt, pepper and sunlight eating outside can boost your mood and even improve your brain structure. Whether you choose a picnic, a patio or a park bench, dining al fresco is a way to refresh both your body and mind.

Fresh air is a favorite prescription of caregivers and healthcare professionals alike, but it's also a secret ingredient to make any meal taste better. Being outdoors, especially in nature, can improve sinus health and, therefore, your sense of taste.

Feeling the sunlight on your skin and hearing birds sing is clinically linked to measurably decreased stress. The more relaxed you are while eating, the healthier you are likely to eat and the better you are able to digest your food.

Our picnic tips? Start simple. Have your coffee and breakfast outside watching the sun rise, share a snack with a friend in a park, or try a one-dish dinner on a patio. Checkered blankets and wicker baskets are not required for all the positivity a picnic can offer.

Sisterly Bond

The first Sunday in August is National Sisters Day, a day to honor that special sibling relationship. Look back at these famous ladies with family ties.

The Bronte sisters. Charlotte, Emily and Anne shared a talent for writing. The authors have enchanted readers since Victorian times with their classic novels, including "Jane Eyre," "Wuthering Heights" and "Agnes Grey."

The Andrews sisters. Patty,
Maxene and LaVerne were
singing superstars of the
jitterbugging 1940s. The trio is
best known for boosting morale
on the home front during World
War II with iconic songs like
"Boogie Woogie Bugle Boy."

The Gabor sisters.
Hungarian-born Zsa Zsa, Eva and Magda were Hollywood glamour girls. The three shared the spotlight in the 1950s and '60s not only as TV and film actresses, but also as socialites.

The Pointer sisters. Daughters of a minister, Ruth, June and Anita began singing in their father's church. The group became a pop music sensation during the 1980s with hits such as "He's So Shy," "I'm So Excited" and "Automatic."

Wonderful Watermelon

Nothing says summer like a juicy slice of watermelon. Not only is this refreshing fruit a great way to stay hydrated on hot days, but it also contains a type of amino acid that can provide relief to sore muscles.

The origin of watermelon has been traced back to the deserts of southern Africa some 5,000 years ago, where it still grows wild today. European colonists and the slave trade brought watermelon to the Americas in the 16th century, with the fruit grown first in Florida. Watermelon reached South America in the 17th century.

We All Scream For Ice Cream!

It's summertime, and it's HOT! To help everyone keep cool this month, we're having an ice cream social in the Bistro on Saturday, August 16. We'll have your favorite flavors and lots of toppings, so join us for a real cool time.

Give Back at Back-to-School Time

When you're shopping school supply sales this month, consider picking up a few extra items to donate. Many community businesses and organizations host back-to-school drives, which provide backpacks full of supplies to children in need. You can also contact schools in your area and ask if you can drop off some extra pencils, crayons, glue and other goodies. School nurses will often keep toiletries and snacks on hand, so keep these items in mind if you're looking for other ways to give back.

Wit & Wisdom

"Let us dare to dream and shoot for the moon. Even if we don't fetch the moon, a million stars may fill us with wonder." —Erik Pevernagie

"Once you can accept the universe as matter expanding into nothing that is something, wearing stripes with plaid comes easy."

—Albert Einstein

"Remember to look up at the stars and not down at your feet. Try to make sense of what you see and wonder about what makes the universe exist.

Be curious."

—Stephen Hawking

"I would rather be a superb meteor, every atom of me in magnificent glow, than a sleepy and permanent planet." —Jack London

"Let the waters settle and you will see the moon and stars mirrored in your own being."

—Rumi

"Those are the same stars, and that is the same moon, that look down upon your brothers and sisters, and which they see as they look up to them, though they are ever so far away from us, and each other."

—Sojourner Truth
